## Container and Truck seals

Securing shipping containers and vehicle doors on domestic long-distance and international transit.

### Hi Genius Bolt seal "High Security"

#### ISO/PAS 17712:2010

High Barrier seals with ISO-PAS 17712:2010 and C-TPAT compliance, (Customs-Trade Partnership against Terrorism) & New Zealand Customs approvals for the SEP - SES Scheme.

Entire plastic enclosure of the barrel and pin is made of hard durable SAN plastic to reveal evidence of any attempt of tampering.

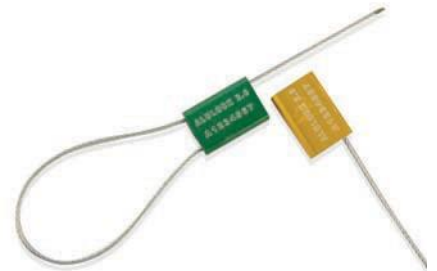

Hardened steel locking mechanism. All metal components are zinc coated. 5 standard colours are available. Sequential numbering, branding and bar coding are available.

- Trucks
- Shipping containers
- Rail freight
- Utilities, meters & valves,
- Anywhere high security and high breaking strength are required

### Genius Solid Bolt Seal "Medium Security"

- Bolts and inserts made of high strength steel
- Bolt pins are heavily chromed to prevent corrosion
- The pin can be printed with the same serial number as that on the barrel for tighter security control
- Entire plastic enclosure for the barrel is made of quality ABS to withstand impact
- Secured by metal circlips on bolt and metal inserts upon locking for maximum security
- Branding and numbering available
- Carton Qty: 200 pieces

### Cable Seal

Cables are non-preformed galvanised steel Aircraft cable and will splay upon cutting, thereby preventing rejoining.

Body of seal is made of corrosion resistant aluminum.

Unique locking mechanism for minimal reversal at engagement.

Diameters available: 1.5mm, 2.5mm, 3.8mm.

Lengths: 250mm, 300mm, 600mm, 900mm.

Branding and numbering available.

Carton qty.: 500 seals

Customer Name and a sequential serial number and bar code can be laser printed on the barrel, bolt or seal's body for added security

SafePak stock an extensive range of tamper-evident seals in various lengths

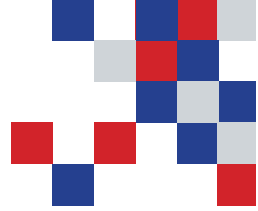

- Each seal conforms to a fixed loop design
- Patented double-locking mechanism enhances the level of security
- Special acetal locking jaws improve the security even further
- Requires no tool for removal
- Moulded in high quality food grade polypropylene
- Branding and numbering available
- Size: 8.0mm x 210mm
- Carton Qty: 1000 pieces

- Curtain side trucks
- Courier & Postal Bags
- Security Containers
- Duty free trolleys
- Cash bags
- Hospital waste / disposal

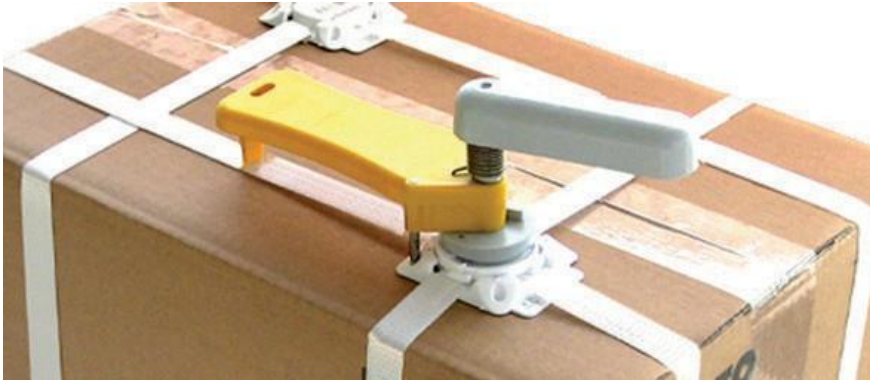

- Each seal conforms to a variable loop design
- Smooth strap is more user-friendly than conventional strap designs.
- Stainless steel spring locking mechanism, gives a high level of security once applied
- Can be moulded in high quality food grade polypropylene or polyamide (Nylon).
- Options: barcode / side tear-off
- 250mm & 350mm long versions available
- Carton Qty: 1000 pieces

# Pallet & Carton Security

Securing pallets, cartons and other containers of high value goods on domestic long-distance and international transit.

### Features:

- Designed to be applied to the generic plastic band on a pallet.
- Both components sequentially numbered
- Two sizes for strapping;
 

6mm - 12mm	(F7000)
12mm - 19mm	(F7115)

### Benefits:

- Enhanced security level
- Cargo remains more secure than with any other sealing technique for a pallet
- Attempt to tamper with the StrapLock would be visually easy to recognise
- Sequentially numbered parts

### Components:

- Plastic hand locking tool
- A different tool is required for each size of StrapLock

Tamper evident adhesive tapes and labels, reveal clearly visible security message if removed

- Tamper evident continual tape for pallets and cartons
- Partial transfer - leaves the security message adhesive film on the applied surface
- Clearly visible security message upon peeling of label
- Size: 50m L x 48 mm W
- Pack Qty: 1

- Clearly visible security message upon peeling of label
- Three types available for different applications:
  - Non-transfer - leaves no residue on applied surface*
  - Partial transfer - leaves easily removable void message residue on the applied surface*
  - Total transfer - leaves the security message adhesive film on the applied surface*
- Comes in two standard sizes and can be customised
- The matt polyester surface allows for writing by normal ballpoint pens.

- For use on Airline carts and duty free trolleys, security cabinets
- Three different sizes available
- Sequentially numbered
- Hasp diameters: 2.5, 3 and 4mm
- Carton Qty: 1000 pieces
